
Attacchi difettosi

Postato da sertorelli - 2009/11/24 12:18

dal sito dell'unione europea per la sicurezza dei consumatori è apparso il seguente avviso:

Category: Hobby/sports equipment

Product: Alpine ski binding - Salomon "LZ", Atomic "Evox 2.8", Atomic "FFG 8" and TECNOpro "TL 70" and "TL 80"

Brand: Salomon / Atomic / TECNOpro

Type/number of model:

SALOMON branded products:

- LZ 7, LZ 8, LZ 9

- LZ 7 SR, LZ 8 SR, LZ 8 SC

- JLZ 9

ATOMIC branded products:

EVOX 2.8, EVOX 2.8+ and EVOX2.8++, FFG 8

TECNOpro branded products:

- TL 70, TL 80- TL 70 SP, TL 80 SP

- TL 70 SR, TL 80 SC

The ski bindings concerned by the recall all bear a manufacture date code ending in "8" (indicating the year 2008). This code is located on the central section of the binding toe piece, at the place where the ski boot comes into contact with the toe piece.

Description: Alpine ski binding

Country of origin: Romania

Injuries

The product poses a risk of injuries because there is the possibility that it could inadvertently release during use when the binding is set to a low release value (DIN value below 5) and/or the front part of the ski boot is worn.

Two incidents have been reported where injuries were attributed to the inadvertent release of the binding.
